

HERA INDEMNITY

## Commercial Insurance

### Commercial Property and Building Insurance

Property owners, landlords or property managers of a commercial building will require specialist insurance for their property to be fully protected against fire, lightning, storm, flooding, structural and subsidence problems and disputes with tenants.

There is no single policy that cover all these issues and therefore it is vital to have insurance that will give you a high degree of flexibility and designed to your specification. Such a policy can be arranged with one of the country's leading property insurers and underwriters.

As with all property owners' insurance the building should be insured for their full re-building cost and not for the market value. Liability insurance is generally included as standard with a commercial buildings policy, however cover is restricted to just the building.

One of our brokers will call you back, give more details and send a quote -
