Broker at **LLOYD'S**

## Commercial Insurance

### Office Contents and Liability Insurance

Office Contents and Liability Insurance is essential for any commercial office to provide cover against loss, damage and theft. Naturally each office differs in size, contents and value and we will assess your particular needs to ensure you have the right level of insurance and protection.

Working with quality insurers will also give you access to a number of useful optional extras that you may want to consider, for example, computer breakdown, public liability, employers' liability, business interruption, buildings and legal expenses insurance.

One of our brokers will call you back, give more details and send a quote -
